# Digital Colour Matching Revolution

**GET. SET. MATCH.**

## KEY FEATURES:

- ▶ Compact size, easy to use
- ▶ Large colour UI touchscreen with stylus
- ▶ Intuitive design with user-friendly buttons
- ▶ Wi-Fi enabled
- ▶ Built-in rechargeable battery
- ▶ Reads solid, metallic, pearl & effect colours
- ▶ Global colour database
- ▶ Industry first Search & Correct functionality

The Paint Partner Spectrophotometer provides a blend of ergonomic design, with innovative next-generation technology and Wi-Fi capability to make your life easier. It's compact, light and easy-to-use whilst providing high-quality colour matching accuracy.

The device has a 5-angle/6-angle measuring technique, which allows for more accurate readings on difficult-to-reach places. The photos from the integrated colour camera are equipped to identify the effect in solid, metallic & pearl finishes.

The Paint Partner Spectrophotometer comes with full-colour touch screen UI and can be used both indoors and outdoors. And even with gloves on!

The device has a convenient rechargeable battery and the ability to connect directly to your PC. You can use it with Nippon Paint proprietary Paint Partner colour retrieval software, which will provide you with the perfect match shade in no time at all.
